## **IRTS Contest Rules Updates**

The IRTS committee has approved two changes to the contest rules; firstly a new 6-hour section in the HF Field Days and secondly a bonus for CW contacts in the mixed-mode sections of the HF Counties contests.

The two HF Field Day contests - CW Field Day during the first weekend in June and SSB Field Day on the first weekend in September - are 24hour contests, coinciding with similar contests in other IARU Region 1 countries. To encourage more individuals and groups to participate in these field day events, we have introduced a new 6hour section for both of these contests. The rules provide that operation need not be for one continuous 6hour period, but once operation has commenced in the contest, off periods must be a minimum of 60 minutes. Also, the normal field day pre-registration requirements will not apply to stations entering the 6 hour section.

The HF Counties contests - which currently consist of two 80m and one 40m contest - have mixed mode sections for those wishing to operate both CW and SSB. CW activity has tended to be minimal in these contests, so to encourage more activity at the CW end of the bands, a final score bonus of 1,000 points will be added to any entry that includes at least 10 valid QSOs with EI or GI stations. We have also suggested CW "centre of activity" frequencies for these contests.

Our contest rules, which are available at [www.irts.ie/contests](http://www.irts.ie/contests) have now been updated to reflect these changes.

---

## **VHF/UHF Field Day Contest**

This contest takes place next weekend, over 24hours from 14:00 UTC on Saturday 4th July. The contest covers five bands - 50, 70, 144, 432 and 1296 MHz. All five bands may be used in the Open Section, however we also have a Restricted Section for those operating on just one of these bands. With plenty of UK and continental European stations on the air over that weekend, and perhaps some good Tropo conditions, this contest offers a great opportunity to work DX on the VHF and higher bands. See [www.irts.ie/contests](http://www.irts.ie/contests) for the rules.

## **Olivier ON4EI back in Ireland**

Olivier ON4EI is back in Ireland from 4th to 13th July 2015 to operate EI8GQB and EI1A during the IARU HF World Championship contest.

In 2014 Olivier scored, with EI1A, top Europe score in CQ WW WPX, IOTA en CQ WW DX contests in Low Power/Single Op SSB category using mainly green energy with his temporary 'Field Day like' antenna park setup.

You can follow this one man expedition on [www.qrz.com/db/EI8GQB](http://www.qrz.com/db/EI8GQB) or meet him on the air. (See live operating frequency on his qrz.com banner). QSL only via LOTW or via QSL MANAGER: PA3249 (direct or bureau).

### **DX News**

Three Belgian amateurs will operate from Market Reef using the callsign OJ0V from 28th June to 4th July. They will use mainly CW, with some SSB, on 40 -6m. QSL Manager is ON5TC.

Geoff G8OFQ will make a return visit to the Galapagos Islands from 1st July. He will reactivate his HC8/G8OFQ callsign on 160 – 6m. This will be a spare-time operation and he expects to be there till the end of September. While in the Galapagos Islands Geoff works as a volunteer at the Giant Tortoise Breeding Centre on Isabela Island.

The callsign PJ5A will be activated by K5AND and K4RX from the island of St Eustatius until 5th July. They will be on all bands but will concentrate on 6m. QSLs go via M0URX.

Jacky ZL3CW (formerly F2CW) is now quite active as 9N7CW from Nepal. QSLs go direct to ZL3CW and logs will be uploaded to Logbook of The World.
